CATALOG & PROMOTION

Cow Camp Promotions cowcamppromotions.com

Greetings;

On behalf of myself and the consignors, I would like to welcome you to the Montana Red Angus Association's 41st Annual "Prestigious" NILE Red Angus Sale! It has been a pleasure to be involved in the development of this sale!

The fact that this is their 41st sale shows the commitment of this association to its membership and the beef industry as a whole. The programs presenting this offering host some of the top production and bull sales in the land so take advantage of them sharing the base of their program with you!

The current market trends are very positive and with calf prices as strong as they have been in a very long time and the cattle numbers as low as they have been for many, many years, the outlook for the future is very bright. The demand for Red Angus cattle both as breeding stock and feeder cattle is tremendously strong. The offering of this provides you as buyers the opportunity to secure value-adding genetics that can advance your program significantly for the future.

If you are looking for females and genetics that can produce top-end individuals for both the commercial and seedstock industries, this offering provides a lot of opportunities for you. The open heifers have some outstanding show heifer prospects for junior programs. These open heifers are out of top-end females and ET programs and will develop into great cows as well. The bred heifer offering is sired by breed-leading genetics and bred to some of best sires available!

The sale will be broadcast on Northern Livestock Video Auction for those that may want to bid online and be viewed there or on the Montana Red Angus website which is www.montanaredangus.org.

The videos will be posted as they become available. If you have any questions regarding this offering feel free to contact myself or any of the individual consignors about their consignments.

I would like to thank the Montana Red Angus and this group of consignors for the opportunity to work with them in presenting this sale which is being held in conjunction with the NILE stock show in Billings.

I invite you to attend this sale which will be held on October 18, 2024, at the Montana Pavilion at 1 p.m. MDT!

Sincerely,
Jeff Thomas

DONATION HEIFER RAFFLE

To purchase raffle tickets for the Donation Heifer if not present please contact:

Luke Larson 406-207-6776
Tim Geib 406-480-5438

Drawing will take place at the conclusion of the sale.

We are excited to donate this deep cherry-red heifer calf. She is out of a stunning young Harmony mama cow – picture-perfect udder, great feet and flat out good. You may have not heard of CK Thor SX 2071 until now. Here is his first beauty to ever be offered. This bull is stamping his calves with a whole lot of style and performance. CK Harmony 4080 is an absolute sweetheart and is packed with maternal goodness. Be sure to get extra tickets because it could be your lucky day!

Watch for a video of this exciting young open heifer that has been offered by CK Red Angus for the benefit of the Montana Red Angus Association! It will be posted on www.montanaredangus.org. Contact those listed if unable to attend and would like to purchase tickets!

Fundraiser for MTJRAA "A Herd in a Tank"

ABS Global has donated a tank to be auctioned off during the sale as fundraiser for MT Red Angus Juniors.

The junior members are working hard to get genetics to be auctioned off as "A Herd in a Tank" to raise funds for future junior events.

Please contact Chris Pierce, 406-663-2251
if you have some of Montana's elite genetics to donate.

C-T Blockana 8017 is quickly becoming one of our top donor cows at C-T Red Angus by proving herself time and time again. She stems from the time tested Blockana cow family that just keeps making the good ones and is sired by one of the great female making bulls of the breed, C-T Red Rock 5033. She provides one of the top EPD packages with Pros in the top 6% and GM being top 8% of the breed. Her conformation and is in my opinion, what an Angus mother cow should have with plenty of body, beautiful front end and very correct udder and feet. She produced one of our top selling herd sires at the Feddes/C-T Bull sale in 2022 by Bieber Sparticus and another one by Bieber Stockmarket going to Diamond P Cattle Co., KY in 2023. This mating to TAC Drifter H10 may be as exciting as it gets. He produced our high averaging sire group in the 2024 Feddes/C-T Bull Sale, with no semen available on the market again. He had many sons going into semen companies and reputable breeders. Don't miss this opportunity to buy into these breed-leading genetics!

 HUGHES KIMA 0010

This stylish RED U2 Money Talks bred heifer is stretchy and well built. She is a long, deep and thick bodied heifer. She comes from a cow family that continues to produce top calves – both bulls and heifers. Her dam, Kima 0106 is in her prime and has done very well establishing an MPPA of 105. We have used her sire, Money Talks 530F in our AI program as well as in our embryo program. We are very impressed with his offspring. He has added style and thickness to his offspring. She has lots of length and still shows off her feminine traits. We are excited to offer her and look forward to seeing what she can do in the future. Our bet is that she will be a strong producer for several years. She is AI bred to Milk Creek Advocate – checked safe to her AI date of 5/13/24 and carrying a bull calf.

Bred to **MLK CRK Advocate 0401 (#4306189)** on 5/14/24. Confirmed for a 2/15/25 bull calf.

Rebalas 3012, a DKK Brute 931 daughter, is the product of one our strong cow families. Her mother, Rebalas #9050, has been a top producer for us and at the age of five (just hitting her prime producing years) has an MPPA of 103. We are confident that Rebalas 3012 will continue in her dam's footsteps and be at the top producer in any herd she joins. Rebalas is bred to Glacier Logan 210 and has been ultrasound checked safe to her AI date of 5/14/24. She is carrying a bull calf. We think that the calf she is carrying will be something special. This bred heifer has a nice feminine look to her – a great addition to your program.

Bred to Glacier Logan 210 (#372629) on 5/14/24. Confirmed for a 2/15/25 bull calf.

Vicelia 319L will be one of your top choices to purchase a top brood cow prospect that has donor cow potential. Production along with excellent maternal and marbling traits combine as 319 ranks in the top 3% for growth traits and a maternal ranking in the top 8% of the Red Angus breed. Don't miss the fact that she is in the top 16% for Stayability as well. Above average production and stayability is a hallmark of this cow family. Her dam has earned a 107 MPPA and a maternal sister was our high selling female in 2022. She has earned a 107 MPPA for her new owners. Did I mention that Vicelia 319 is quite striking and easy on the eyes? You don't want to miss this great young female who sells bred to top AI sire ALC Remedy for an early March calf!

Bred to ALC Remedy K60 (#4610533) on 5/28/24. Pasture exposed from 6/1/24 to 7/15/24 to FLRA Long Haul RK07 (#4614391). Confirmed for a 3/6/25 calf.

Check out this outstanding female and her consistent, breed-leading tabulations. She is definitely a "gotta have" prospect if you're striving to build a high-performance cow herd with predictability! Listen to this: Peacha 356L is in the top 9% for ProS, top 23% for HerdBuilder and in the top 13% for GridMaster. This cow family has been great revenue producers for us and others that have purchased animals from this cow family. Several years ago, the high-selling bull on the Sandbur Ridge sale for the Cooksley family was a son of a maternal sister to this sale lot. If complete, breed-leading balanced cattle are your goal, add this gal to your herd! A perk for Peacha 356 is that she sells bred to the exciting new AI sire, ALC Remedy K60, for an early March calf that will be a sure-fire cure for the dull pedigrees that your used to!

Bred to ALC Remedy K60 (#4610533) on 5/28/24. Pasture exposed from 6/1/24 to 7/3/24 to FLRA Long Haul RK07 (#4614391). Confirmed for a 3/6/25 calf.

If your selection criteria for herd replacements is a complete balanced approach, then give this female serious consideration and put her at the top of your list. Sereola 363L is strong across the board for economically important traits. Top 10% for ProS, top 35% for GridMaster, and most importantly, top 7% for HerdBuilder. She comes from the Sereola cow family, known for stayability traits. Her dam is in the top 8%, and she's an own daughter of Andras New Look, a breed leader in the top 1%. Sereola 363L is sired by VGW Top End 021, the high-selling lot from the 2021 Westphal sale, purchased by Bullis Creek. He also sired several high sellers in the 2024 sale. 363L is a complete, sound-made female that will be a great addition to any herd. She is loaded with good traits and needs to go home with you on sale day. She sells bred for a March calf to the new Bullis Creek sire, FLRA Long Haul RK07 (#4614391). The calf she's carrying will definitely be a coupon worth clipping.

Bred to (#) on . Pasture exposed from 6/1/24 to 7/3/24 to FLRA Long Haul RK07 (#4614391). Confirmed for a 3/26/25 calf.

Here's a great opportunity to own a Beautiful Miss Pan bred heifer. She is a complete female, with a moderate frame, lots of muscle, quarter, and a great foot and leg set. She expresses femininity in her front end and will make a top-producing cow in any herd. These Energize daughters have uniformity and consistency. Dam is a complete 6-year-old C-T Red Rock x C-T Grand Statement cow with a 101 MPPA, showing the deep body, good foot, and udder we all seek. She's bred to the exciting young herd sire, Feddes Eastwood D82-3284, high-selling bull at the 2024 Feddes/C-T Sale to ABS. He was part of a solid group of TAC Drifter H10 sons, offering calving ease, performance, and carcass in one package. Don't miss this first-time opportunity for fresh herd-building genetics.

Bred to Feddes Eastwood 3284 (#4787522) on 4/19/24. Confirmed for a 1/25/25 calf.

This bred heifer has been a personal favorite since she hit the ground as a baby. The Olivia cow family puts femininity, udder quality, foot structure, productivity and fleshing ability into one complete package. This phenotypic gem adds stoutness and shape while attaining a feminine structure and her numbers stand behind her. Mama is a no-holes type of cow that brings a solid calf home every year, she has a picture perfect udder and fantastic feet. Calving to PIE Captain 057 for a January 22, 2025 baby. Genetics you will not want to miss out on.

Bred to PIE Captain 057 (#4388923) on 4/14/24. Confirmed for a 1/22/25 calf.

This bred heifer is one we are pleased with from a fertility standpoint. She caught naturally in the first cycle after the bulls were turned in. 2342 is a long-bodied female that blends her shoulder up into her neck in an incredibly smooth package. She has the 'in it for the long haul' look to her feet and legs and one you will want to keep when you see her calves hit the ground. She's a 3SCC Domain A163 granddaughter whose daughters we have been pleased with. 2342 is naturally serviced by one of two sires, a HXC Conquest 4405P son we raised out of one of our favorite momma cows or a C-Bar Fortune 263J son who comes from the impressive Mimi line on his dam side, a win-win either way!

Bred to (#) on . Pasture exposed from 6/3/24 - 8/21/24 to EDD CONQUEST 2344 or LOOSLI COLLUSION 306 (#4747419 or 4838248). Confirmed for a 3/14/25 calf.

We are so pleased with the fertility of both our bred heifer offerings in the sale this year. They both caught in their first cycle after the bulls were put in (3 days to be exact) – even with this heifer being a late April calf. She is a moderate heifer built for functionality that's excellent on the move and offers such a nice look from her profile. She has a strong, clean topline and is that nice deep cherry red color. Already proving herself fertile, she'll make a great cow that stays sound. Her dam and sire both hail from the Beckton program. 2343 is naturally serviced by one of two sires, a HXC Conquest 4405P son we raised out of one of our favorite momma cows or a C-Bar Fortune 263J son who comes from the impressive Mimi line on his dam side.

Bred to (#) on . Pasture exposed from 6/3/24 - 8/21/24 to EDD CONQUEST 2344 or LOOSLI COLLUSION 306 (#4747419 or 4838248). Confirmed for a 3/14/25 calf.

This heifer defines what we strive for – balance with maternal, growth, and carcass traits. This may be one of your only chances to buy a Drifter daughter, who took the breed by storm last spring, selling sons to Select Sires and ABS. His daughters will be his true legacy. 3304 boasts seven traits in the top 13% and 14 traits in the top 36% of the breed, with a balanced set of EPDs and matching phenotype. She has a clean front end, bold rib, excellent foot and leg structure, and moves like a cat. She's bred to Bieber Pay Day K113, whose first calf crop is impressing us with extra growth and muscle. The genetic combination of Drifter and PayDay could lead to something special. Ultrasounded with a heifer calf, this should be a front-pasture type. This was a hard heifer to part with.

Bred to BIEBER PAYDAY K113 (#4620475) on 6/2/24. Pasture exposed from 6/3/24-8/18/24 to BIEBER PAYDAY K113 (#4620475). Confirmed for a 3/2/25 Heifer calf.

This heifer is attractive whether you are looking at her phenotype, pedigree, or actual performance or her EPDs. She comes from the famed Lakina cow family. Her dam and granddam boast a 107 and 105 MPPA respectively. The maternal power in this pedigree will be unmatched by almost anything in the breed today. She has some of the most sought after genetics in her pedigree all while maintaining that highly productive and feminine female we have become known for. 365 carries as much rib shape and dimension as you can put in a bred heifer. She has a top set of economically relevant EPDs. She's bred to the high selling Bieber Payday K113 will a bull calf. Our first set of Payday calves are among our best sire groups in 2024. Her bull calf could pay for her the first year.

Bred to AI sire Bieber Payday K113 (#4620475) on 4/17/24. Pasture exposed from 5/17/24 to 7/29/24 to Bieber Payday K113 (#4620475). Confirmed for a 1/18/25 calf.

It has been several years since we have participated in the NILE Red Angus sale and we are glad to send one of our best heifers to the sale this year. She is a great representation of our herd – a granddaughter of Glacier Chateau 744 and a daughter of GMRA Tesla 6214. Kima #313 is long and deep and carries the feminine features of the KIMA line. As you can see, her pedigree includes the influence of several of the top Red Angus breed influencers. Kima #313 is AI bred to Leland Sandman and is checked safe to her AI date of 6/6/24.

Bred to Leland Sandman 1193 (#4474645) on 6/6/24. Pasture exposed from 6/8/24 to 7/25/24 to Glacier Dawson 354 (#4833296). Confirmed for a 3/10/25 calf.

Royally bred, this soft-made female not only has the pedigree, but she also has the structure, functionality and femininity to move the breed forward. Bred to DKK Next Level 3014, you could be one of the first to own progeny out of this promising sire. Starlette 3043 stands on near perfect feet, has a fantastic disposition and displays a beautiful, small Angus head. Her maternal granddam has a very successful record as a donor cow. Additionally, her young dam (DKK Starlette 097) is already boasting a 107 MPPA on 3 calves. Her sire, BB Propulsion 9096, consistently stamps style, performance and goodness into his progeny. This female is exquisite!

Bred to DKK Next Level 3014 (#4748377) on 4/13/24. Confirmed for a 1/21/25 calf.

A beautiful bred heifer, out of the foundation Conchetta cow here at TJB Reds. Just the right size heifer to go into any operation, with the pedigree and numbers to back it up. Confirmed bred AI to LSF DLL Locomotion due to calve to February 11, 2025, and pasture exposed May 11, 2024 – July 15, 2024 to Sutherlin Farms 2024 high selling bull 3C Revitalize 3112. This heifer is in fact a twin to another heifer however the cow was bred back on the first heat after a flush and carries NO twinning gene. The twin to this heifer will be at NILE and shown / owned by junior member Jasper Gilleard.

Bred to LSF DLL Locomotion (#4620365) on 5/4/24. Pasture exposed from 5/14/24 to 7/14/24 to 3C Revitalize 3112 (#4844022). Confirmed for a 2/11/25 calf.

3C Jennifer Key 4078 offers length and extension in a package with a bit more frame. She is an attractive, smooth-sided heifer whose overall beauty catches your eye as she moves through out the pen. On paper she tallys a balanced set of EPDs, ranking in the top 20% for ProS and GM indexes. Her dam is a stylish, long-sided, feminine featured female who records 3 @ 102 for WW Ratio and 2 @ 104 for YW Ratio. She has an MPPA of 101. We selected her first calf to retain in the 3C Cattle herd as a herd sire. The sire in this mating, LEM Stockyard is one of the hottest young sires in the industry with an uncommon blend of calving ease, performance, marbling and phenotype. 4078 has everything she needs to be a great asset to your herd!

Here is the first progeny to sell from our new herdsire, FLRA Long Haul RK07. He was the high selling lot on the first ever New York Red Angus sale in 2023. Sired by Feddes Treadstone he is strong on growth, marbling and light birth. He is a dark red bull that is stylish and correct with super feet and leg structure. Minervina 432M is a well-balanced, femine heifer from a great cow family. Her dam has already placed one heifer on the last years NILE sale going to Gruszcie's in Chinook. This is a really strong cow family for production and getting it done. Four generations of cows behind 432 have an average MPPA of 102. This cow family originated at Lambretch Brother in MT. Don't miss out on this nice, high-quality female that will provide long term above average production, soundness and quality. Take her home on sale day. You won't be sorry.

Wow, talk about a real looker! This gal will get your attention and keep it as you study her. Fancy describes her for sure but she has more than a striking look. She comes packing the mail too as you study her EPD profile and pedigree. The list of notable sires is long and illustrious. Her sire is the deceased too soon bull, Fritz Monument out of a Stockman E116 daughter. This is a combination that has proven to be no-miss and lights out good for us in the past. Here is an excellent chance to purchase a show heifer prospect that will make a top cow prospect with donor cow potential. Look her up and bid early and often on sale day.

A standout C-T Markets Up 2119 heifer calf from the proven Larkaba cow family. Her dam is a gorgeous 2-year-old C-T Reputation 0094 daughter with a moderate frame and a perfect udder and foot stance. She looks to be moving into our donor cow lineup quickly, by proving herself with this beautiful heifer calf and still maintaining great flesh and a quick breed back. Sire is C-T Markets up 2119 was a high seller in the 2023 Feddes/C-T Bull Sale going to Diamond P Cattle Co., KY. He looks to be a great herd-sire in the making with his first calf crop providing some of our top heifer and bull calves in this year's crop of calves. Don't miss this exciting EPD package with many traits landing in the top of the breed. If you are after great mother cows with fertility, calving ease, performance and carcass – LOOK NO FURTHER!

Here is a heifer from the very top of our 2024 heifer calves and, unfortunately, Jeff found her right at the end of his visit. She really puts it all together phenotypically with her angular shape, depth of body, length and structure. This is very consistent with what we are seeing in calves from her sire C-T Reputation 0094. They are very moderate at birth with exceptional growth and eye appeal. Maternally, this heifer comes from one of our most influential cow families, the Emma cow family. Her grand-dam, 8103, has been the cornerstone of this cow family, having produced countless herd bulls and females. She is currently 16 years young and is raising her 14th calf (We left her open to flush one year) with 34 total calves in her name. The dam of this heifer is no exception to the rule, at 8 years old has great feet and udder and a solid performance record. We feel this 2406 heifer will carry on her family's legacy and become a great female, making a positive impact in another herd.

This 2434 heifer is a Feddes CCC Nebraska 1420 daughter, and boy is she a good one. With her dark cherry red color, black feet, length of body and style, she is going to be a beautiful cow. She has good performance with very nice eye appeal. The dam of this 2434 heifer has been a really good cow for us. She too is dark red, moderate framed, with exceptional depth of body, great feet and performance to boot. She hails from the BUF CRK Anasco cow family in a cow that we purchased in the Buffalo Creek dispersion in 2010. This heifer will be a very stylish and productive addition for her new owners.

This heifer is going to grow up to be one of those broody cows that just stays in your herd. She has such deep rib capacity! She wasn't in love with the idea of picture day, but once you get eyes on this heifer, you'll see she has a lot to offer in terms of depth and growth. She's such a free mover and is overall very maternal. 410 is an AI daughter of Andras New Direction R240 and her dam hails from the ever proven Blockana line. She has all the ability to out-do her mother who is one of our best producers.

We really wish Jeff wouldn't have seen this heifer – we would have loved to keep a hold of her! 407 is a well-made heifer that is built smooth from front to back and strong across the top with powerful hindquarters. She tracks out well and is just an overall stylish heifer. Her dam is out of Bieber Spartacus A193 and she's sired by a son of C-T Reputation 0094 giving her the potential to be a major contributor in any operation. We could say a lot about her, but one look at this heifer seems to say enough.

We purchased a set of registered cows several years ago and along with those cows came some embryos that had been flushed out of some of the staple cows from that herd. The first of those embryos is this Red Six Mile Timberlake daughter. She is that dark cherry red, deep ribbed, and good footed. We have several Timberlake daughters in the herd out of the same bloodlines and couldn't be more impressed. With Timberlake semen being hard to find, this is a great opportunity to get your hands on proven genetics! You won't find females like this around anymore.

An ET calf out of a long line of proven genetics. This heifer's maternal granddam is a full sib to Red Six Mile Sakic 832S. The maternal ability in these cows couldn't be better. Her dam has an MPPA of 114. We own several half sisters of this heifer in our program that are solid producers. Her sire, Silveiras Mission Nexus 1378, is a proven female maker in the Red Angus breed and needs no introduction. We have several full siblings on the ground out of this mating and all are either coming back into the herd as replacements or will be sold as bulls in our spring sale.

Klompjen's Impress cow family are no strangers to this event. Jeff spotted this beauty from afar and she just kept commanding his attention in the pasture. This female will be the very first animal to sell out of CK Thor Sx 2071! Other than this year's donation heifer, I don't think there are any other CK Thor Sx 2071 progeny being offered in 2024. Impress 4054's striking coat is as rich and deep red as you can make one. Her gorgeous dam boasts a 359-day calving interval on 6 natural calves. Exceptional foot quality and should also have exceptional udder quality – both backed by several generations both up and down this heifer's pedigree. 13 EPD/Indices in the top 1/3 of the breed.

OWNG Jaylene 2402 is a middle of February heifer calf that is sired by the Duff Red Blood 18114. Jaylene gets her dark red color from her sire. Jaylene is ultra feminine with a body shape like a box. Jaylene is deep flanked with a long slender neck. If you want to show, take a close look at Jaylene 2402. She won't disappoint.

In looking through our heifer calves for the NILE sale. this end of April heifer stuck out. On the top side of her pedigree is the EGL GCC Red Eagle E7194 bull, who is big boned, big footed, and has a great phenotype. All the heifers that go back to him are extremely good, easy to sell and Everly's 2464 is the nicest one. Everly's dam, 2064 is a stand out in our herd, She is a 3-year-old with a beautiful udder. If you want a front pasture cow you will be proud of for the rest of her life. Take a look at Everly 2426.

*ProS, HB, GM, BW, WW, YW and ADG are parental averages and will be updated once the DNA data is incorporated. Please check REDSPRO for her updated EPDs.

SUTH Daisey Duke 204M has all the depth and dimension you could want in a very phenotypically pleasing package. She has the eye appeal and poise that demands your attention when she strides through the pen. She offers the traits to compete in the show ring and then will impress you with the pounds weaned as she grows into a momma cow. To complement her style, she also ranks in the top 25% of the breed for the HB index and Stayability EPD. Her dam records at WW Ratio of 5 @ 103 and a MPPA of 102. She is a bit more moderate in stature and yields tons of depth of body and rib shape. She is solid footed and good uddered. The sire in the mating offers the ultimate combination of style, muscle and end to end depth. His pedigree is also a fresh new outcross to most of the Red Angus breed. SUTH Daisey Duke 204M comes with all the bells and whistles, you don't want to miss this opportunity to take her home!

We dug deep to bring you this heifer calf. Arguably out of his all-time favorite cow "Ruby", this heifer calf definitely follows her dam in both phenotype and "personality". Come see her and talk to us about her being the easiest calf we have ever halter broke! It literally took about two days until she was pretty much halter broke. An excellent Junior project prospect! Her dam has had now nine calves for us, and has taken to AI every single time, not to mention being the dam of a NILE Overall Red Angus Champion bull (her first calf) and raising many champion heifers calves for us and other junior members. A real foundation type heifer calf for a junior to show and then build a herd around.

This 2023 sale heifer went on to compete very well!

Many more of that kind sell in this year's sale!

History of the Montana Red Angus Association

The Montana Red Angus Association (MTRAA) was officially organized on November 3, 1972. Several progressive breeders met at the Rainbow Hotel in Great Falls, MT. It was there that they elected officers and established by-laws. The first officers for the ensuing year were – President: Dave Cawfield, Vice-President: Jim Leachman, Secretary/Treasurer: Pete Stoltz.

MTRAA has a total membership of over 65 members, which includes both registered and commercial breeders from across Montana and a few other states. Annual dues are \$50 and payable by January 1st of the current year. Dues are to be sent to the Secretary/Treasurer. An annual meeting is held each October, in conjunction with the NILE. MTRAA happenings and membership listings can be found on our website at www.montanaredangus.org. We can also be found on Facebook.

Montana ranks as the largest register of Red Angus cattle in the Red Angus Association of America, with over 8,953 head registered this last year. Approximately 3,072 head of females and 2,219 head of bulls were transferred to other breeders this last year. Montana is ranked ninth for regular memberships with 133 Montana members in the national organization. We also have 44 Montana Junior members within the RAAA.

MTRAA has always been progressive and leads the way in many programs. They are proud sponsors of the NILE Prestigious Red Angus Sale, which started in 1982. The sale is held in conjunction with the NILE annually in

October. This was the first sale to promote Red Angus cattle being sold by areas breeders. MTRAA is a proud sponsor of youth and established the County Buckle Program in 2000. This program honors all county fair champions that show cattle with Red Angus genetics. These champions are awarded a belt buckle for their achievements prior to the NILE sale. A female futurity was established in 2009. Current NILE sale animals and progeny of past sale animals are eligible to participate. This was established to showcase that the animals purchased at the NILE Sale work in the “real world.” The futurity is held annually in October at the NILE in Billings, MT. We also sponsor the Montana Stock Grower’s Association Cattleman’s College each year in Billings, MT.

In 1977, the first “Feeder Calf” sales were held in Billings and Butte. These sales have expanded to Three Forks, Miles City and Glasgow. October has been dubbed “Red October” as thousands of cattle are sold in these sales.

A Montana Tour is held in the fall on a rotation system that enables attendees to view cattle from both registered and commercial breeders across the state. The state is divided into seven regions, with the breeders in the area hosting the event. We invite you to join us for this annual event of extraordinary camaraderie, plenty of food, gracious hosts, good cattle and fun.

Experience Montana’s Red Angus hospitality and contact one of our breeders today!
